Portfolio: [Insert your Vite/React Portfolio Link]

Professional Summary

Highly adaptable Full-Stack Developer specializing in the MERN stack and cross-platform mobile application development. Proven ability to architect secure backends, optimize user experiences, and deliver end-to-end digital solutions. Currently expanding expertise in Artificial Intelligence (AI), Machine Learning (ML) fundamentals, and Prompt Engineering to design intelligent, next-generation software solutions.

Technical Skills

- **Web Technologies:** React.js, Node.js, Express.js, Tailwind CSS
- **Mobile Technologies:** Flutter, Firebase
- **Languages:** JavaScript, Dart, Python, HTML5, CSS3
- **Databases & Tools:** MongoDB (NoSQL), Git, GitHub, RESTful APIs, System Analysis
- **AI/ML (Current Focus):** Machine Learning Fundamentals, Prompt Engineering

Experience & Key Projects

Software Development Intern | *January 2026 – February 2026*

- Collaborated with a project mentor to define system analysis and project scope requirements for full-stack application development.
- Spearheaded the design and development of end-to-end web applications by integrating dynamic React.js frontends with secure, scalable Node.js and Express backends.
- Managed full-stack architecture, NoSQL database environments, and seamless API integrations.

Unity Health Systems (Clinic Management System) | *Full-Stack Project*

- Developed a comprehensive clinic management application using the MERN stack (MongoDB, Express.js, React.js, Node.js).
- Engineered secure, role-based access control dashboards tailored for system administrators, doctors, and patients.
- Delivered a high-performance digital solution optimized for both strict data security and a flawless user experience.

Library Management System | *Mobile App Project*

- Built and deployed a cross-platform mobile application using Flutter and Firebase.
- Implemented complex widget structures and efficient state management to handle library inventory and user data.
- Maintained version control and repository documentation via GitHub.

Education

Master of Computer Applications (MCA) | *Specialization in AI & Mobile App Development*

(Insert University Name), Surat, Gujarat — In Progress

Bachelor of Computer Applications (BCA)

(Insert University Name), Surat, Gujarat

Strengths & Soft Skills

- **Rapid Upskilling:** Deeply keen to learn new technologies and apply them to complex architectures.
- **Adaptable:** Highly adjustable to changing development environments and shifting project requirements.
- **Communication:** Strong interpersonal skills with a clear commitment to professional responsibilities and team collaboration.
